

Pet travel calendar

Plan the pet travel calendar with a pet travel agent in your country of residence. Start with the **end** (departure) date in mind and work backwards, bearing in mind that you need a minimum of four months to complete all of the processes involved.

The international pet travel agency in your home country can assist you in arranging all the documents, vaccinations and veterinary care prior to your pet's departure in order to prevent it being repatriated at your expense.

Travelling your dogs
